PROJECTS

Web Cv

This project is my resume written in React. Also, the project used packages like Redux for state management and Particles.js for dynamic background.

GitHub: github.com/Dmytro27Ind/web-cv

Chess Environment, BACHELOR'S WORK

This is the Gym environment for AI training. For the front-end part, I used the **PyQt** library to work with **Qt** in Python.

GitHub: github.com/Dmytro27Ind/chess-env-ai

Cute Aquarium, ON DEVELOPMENT STAGE

We will create a creative project for pupils of art schools. For the front-end part, we used **Qt**, **Qml** and **C++**.

GitLab: gitlab.com/Lubos_/cute-aquarium

City Desk, HACKATHON

Application for notification of failures or breakdowns in the city. App written with **React Native** for Android.

GitHub: github.com/Dmytro27Ind/city-desk

DevPost: devpost.com/software/citydesk

App Chat

Messenger app written with **React Native** for android. The backend was written with **NodeJS**, **Express** and MongoDB.

GitHub: github.com/Dmytro27Ind/app-chat

Way of Memories, HACKATHON

This is a 2D single player platform game with a post-apocalyptic theme. The game was made using the **Godot** engine.
